SUSTAINABLE LIVING

Coming home is a luxurious moment with the ambiance and warmth of Hoii. In addition to ambiance and warmth, we also like to come home "consciously". Aware of our ecological footprint and it's impact on the world. Therefore, we are constantly working on making Hoii more sustainable. This includes the entire process from cotton to the finished product. We want to contribute to a more sustainable world.

Our principles

To be transparent and provide a good working and living environment, not only for our own employees but also for our suppliers. We have been working closely with our long-term partners in the Far East for years. We are very aware of social compliance and ensure that our partners in the Far East are encouraged through audits to continue to meet our requirements within working and environmental conditions.

High quality and safe products

Hoii want to be able to guarantee that we offer a good and safe product. Therefore, a number of cushion covers are OEKO-TEX STANDARD 100 certified.

The OEKO-TEX STANDARD 100 is a global certification system for both raw materials and textile products. At Hoii it concerns a selection of cushion covers.

Our entire production process is tested so that we can say with assurance that our products are harmless to humans.

Our products are tested for compliance with the legal rules and regulations concerning environmentally harmful substances such as heavy metals, harmful dyes and plant protection products.

Recycled feathers

The quality team of Hoii is continuously improving and innovating the production process and obtaining the necessary certifications for our products. We are proud of the fact that all our feather cushion fillings contain 100% recycled feathers certified by the Global Recycled Standard (GRS).

All styles

In this final chapter, the complete collection comes together. Each style and colorway plays its part, forming a unified story that reflects the vision, craftsmanship, and versatility behind the designs. Presented as a whole, the collection reveals the relationships between silhouettes, materials, and color, allowing subtle details and thoughtful contrasts to emerge. Together, the pieces create a balanced and cohesive narrative, one that highlights the collection's character while leaving room for individual expression.
